

WELLESBOURNE MOUNTFORD 6-8 JUNE

HIGHLY INSTRUCTIVE

Alec Trevett and Alan Cassidy at Wellesbourne.

by **NICK BUCKENHAM**

THE British Aerobatic Association (BAeA) ran the inaugural Aerobatic Training Seminar for instructors in conjunction with On-Track Aviation, based at Wellesbourne.

LOOP contributor Alan Cassidy presented a wealth of information to the assembled group of QFIs. The aim was to pass on expertise to guide aerobatic students in early training. It also provided the assembled parties with a first foray into the art of flying

precise aeros in front of the judges.

On-Track put on a tremendous effort to make this a valuable and enjoyable experience, the BAeA will look forward to seeing the results of this highly targeted exercise.

On the Saturday, BAeA ran its first ever event at Wellesbourne, for Beginners and Advanced classes.

First-timer Alec Trevett and his Chipmunk held off Robin 2160 pilot Rob Deeth for the Beginners plaque.

WELLESBOURNE

Beginners Known First Flight

- 1** Paul Stanley/Cassidy (Pitts S2-A) 74.93%
